

Thanks for making it so easy. (Jerry M.)

This was my first time ever doing one of these webinars and it was a great first experience. It was simple to get into the class and you and Diane were great. She is very personable and easily talks about and explains the subject matter thoroughly but also in a way that is easily understandable. Tell her I think she's great and I'll be taking more Webinars as I just found out that we needed 12 teacher instructed CE's versus the previous 3 hours needed. I'll recommend you guys to my co workers, thanks again for the very pleasant experience! (Sergio E.)

Easiest & most comfortable way to get CE's. (Joel W.)

Thanks so much. These webinars are great given the increased number of CE's required by the state. I will definitely spread the word. Thanks again! (Eileen G.)

Enjoyed webinar. Will be taking part in more in the future. (Sergio M.)

I recently attended a webinar offered by one of your competitors. Video quality was extremely poor and it was NOT live. I love yours and will be back! (Melissa D.)

This was the 1<sup>st</sup> time I've done a webinar, great way to go for CE's. Thanks for putting this on! (Kara K.)

Great topics and super convenient! Thank you Diane and John. I will definitely refer STAR to my colleagues. (Darren N.)

Thanks for the webinar. I will recommend it to others and I will be coming back. (Erin T.)

Thanks for the presentation. It was very informative and well done. I look forward in doing another webinar in the future. (Hector M.)

You'll see my name again in the future! I'll be sure to share your webinar info with my team! (Starr W.)
